---

I received a phone call today from Robert Hicken of Mountain Valley Stone.

He went up today to put in the t-posts to permanently mark the survey line that was established last week and to mark his proposed permit area. Upon arrival he discovered that all the survey markers have been removed, and that a new survey line has been established on his property.

He indicated that he has contacted Wright-Garff resources about the situation. they will have their attorney look into it. I told him he may need to go to court to get the situation resolved. The County surveyor may also be able to assist.

I also called the Summit County Planning office, and informed Jenifer Strader of the situation. She indicated that she would inform the County Surveyor and the County Attorney of the situation.

A copy of this memo will be sent to the mine file (m/043/019)
